DETAILED ACTION

Information Disclosure Statement

1. The Information Disclosure Statement states that a translation of JP09076516 is included, as well as (English abstract only) of JP 08142339 and JP 10296982. However, no translation was found for JP 09076516; only an English abstract was found. And for JP 08142339 and JP 10296982, no English abstract was found. Applicant is requested to supply the aforementioned documents.

Election/Restrictions

2. Applicant's election of Group I in Paper No. 7 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

Claims 7-9 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected inventions, there being no allowable generic or linking claim. Election was made **without** traverse in Paper No. 7.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-6 are rejected under 35 U.S.C. 102(b) as being anticipated by Kobayashi et al (US Pat 5916452).

Kobayashi et al discloses:

- A printer containing a print head, which ejects ink drops from nozzles by heating ink with heating elements (column 1, lines 7-10; column 10, lines 1-23). The method of manufacturing the print head as recited in the claims does not further limit the printer because it does not further define any structure of the claimed apparatus.
